get to know.

A versatile developer with a background in Full Stack Web Development (MERN) and Mobile App Development. The individual demonstrates proficiency in building mobile applications using both React Native and Flutter frameworks. This mobile development expertise is complemented by a strong skill set in web technologies, including React.js, Node.js, Express, and MongoDB.

This professional has experience developing across the full stack, as evidenced by work in MERN environments, and also possesses the ability to create cross-platform mobile applications. The skill set includes a range of front-end technologies such as CSS, Bootstrap, JavaScript, and HTML, alongside experience with version control systems like Git and GitLab.
