get to know.

Mobile Developer with solid experience in Flutter and proficiency in React and full-stack JavaScript technologies. Passionate about building high-performance cross-platform mobile applications with clean architecture and strong UX. Proven ability to deliver scalable and feature-rich apps using Firebase, MVVM, and REST APIs. Hands-on experience in both startup and freelance environments, including team leadership and project ownership. Skilled in developing and deploying apps for both Android and iOS platforms, with a continuous learning mindset and strong problem-solving skills.

In previous roles, contributed to projects involving agile methodologies (Scrum), CI/CD practices, and integration of innovative technologies such as AR and geofencing. Known for strong collaboration with designers, developers, and stakeholders to ensure project alignment and product quality. Combines technical expertise with soft skills like autonomy, curiosity, and clear communication to add value across the full product lifecycle.

experience.

Consultant @ Freelance
Munich, 01-2023 / 05-2023

Role: Mobile Developer

Main Activities:

- Orchestrated a team of five, including full-stack developers, a UI/UX designer, and a Unity AR developer, while serving as the lead mobile developer.
- Developed a Flutter-based mobile application, ensuring scalable architecture and facilitating effective client communication.
- Ensured high product quality, maintaining excellence in functionality, usability, and performance standards.

Consultant @ Keejob.com
Tunisia, 11-2022 / 01-2024

Role: Mobile Developer (Flutter)

Main Activities:

- Revamped job search applications, resulting in a 30% increase in user engagement. Implemented dynamic testing for job seekers and enhanced the user interface using Flutter.
- Introduced push notifications using Firebase Cloud Messaging to enrich application functionality.
- Utilized Git for version control and collaboration with team members.

Consultant @ Groupado
Tunisia, 01-2022 / 11-2022

Role: Web and Mobile Developer

Main Activities:

- Designed and implemented UI/UX for a Flutter-based mobile app using Adobe XD
- Established app architecture using MVVM, DI, and state management for optimized performance
- Integrated web services and innovative technologies such as AR and geofencing
- Collaborated with the development team using Scrum methodologies for smooth project execution
- Developed front-end and back-end features for web projects using JavaScript, React, MongoDB, Express, and Node.js
- Resolved issues and maintained multiple web development projects

Software Engineer @ Educenet and Tunisie Telecom
Sousse, 09-2021 / 02-2022

Role: Mobile Developer (Flutter)

Main Activities:

- Developed a dynamic quiz mobile app for schools using Flutter.
- Led the UI/UX design process and executed design using Adobe XD.
- Integrated web services and implemented Firebase services for user authentication and data storage.

- Built and tested applications on both iOS and Android platforms
