Flutter

### get to know.

Mobile Developer with nearly 5 years of experience, specializing in Flutter for the development of cross-platform applications for both iOS and Android. Solid understanding of mobile app architecture (MVC, MVVM), REST API integration, Firebase services (Authentication, Cloud Messaging), and deployment pipelines (CI/CD) using tools like Azure DevOps and Jenkins. Experienced with React and Angular, with strong front-end skills complementing mobile development expertise.

Recognized for strong communication skills, autonomy, and team collaboration. Combines technical depth with UX/UI knowledge, and has contributed to the full lifecycle of mobile applications from initial architecture to store deployment and maintenance. Comfortable working in agile environments (Scrum, Kanban), and motivated to take on increasing responsibilities in tech leadership and product ownership.

### studies.
